SITUATION SUMMARY

May Day Demonstrations scheduled today

- May Day demonstrations are occurring throughout the state today. These demonstrations may be coupled with the protest out of Baltimore, Maryland. In Northern California, protesters may disrupt BART stations and the Port of Oakland will be closed during the day, but open for night operations. Cal OES Regions are monitoring the situation, and Cal OES Law Enforcement Branch has an Assistant Chief assigned to Region II RMAC (Alameda County Sheriff's Office) EOC and an Assistant Chief assigned to the Region I RMAC (Los Angeles County Sheriff's Department) DOC

6.8 Magnitude Earthquake, New Britain, Papua New Guinea

- On 05/01/15 at 0345 hours a 6.8M earthquake (EQ) occurred near New Britain, Papua New Guinea.
- A Tsunami Information Statement was generated by the National Tsunami Warning Center. There was no tsunami danger for California.
- The California State Warning Center conducted a roll call of all California Coastal and Delta Counties.

7.8 Magnitude Earthquake, Kathmandu, Nepal

In response to Nepal's request for urban search and rescue (US&R) assistance the United States State Department, U.S. Agency for International Development's, Office of Foreign Disaster Assistance (USAID/OFDA) has deployed two INSARAG-Classified Medium US&R teams: Fairfax County, VA (VA-TF1, identified by USAID/OFDA as USA-1), consisting of 54 personnel to include six Canine Search Teams; and Los Angeles County, CA (CA-TF2, identified by USAID/OFDA as USA-2), consisting of 57 personnel to include six Canine Search Teams. USA-1 and USA-2 are actively operating in Nepal.

Situation

- At 2311 hours on 04/24/15 a 7.8M EQ occurred in Nepal, approximately 40 miles away from the capital of Kathmandu. The EQ was also felt in Pakistan, India, Tibet, Bangladesh, and China. The earthquake and its aftershocks have resulted in a significant number of fatalities and injuries, with widespread damage to buildings and infrastructure. As of 1200 EDT 29 Apr, the Government of Nepal reports 5,238 (+556) fatalities and 10,348 (+1,108) injuries.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- Kings County has submitted a Drought Proclamation Renewal.
- Sutter County has submitted a Drought Resolution Renewal.

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure will bring dry conditions to northwest California through the rest of this week with seasonable temperatures near the coast and inland temperatures above normal.

Medford Weather:

Mostly clear skies prevail this morning with an offshore low level flow pattern in place. Upper level flow will remain over the area through Saturday with embedded short waves moving onshore well to the north and a weak baggy trough off to the southwest. Dry and warm weather will persist through Saturday, however today will be the warmest day.

Reno Weather:

Temperatures will remain well above normal this weekend. A weak low pressure trough will develop near the west coast and move inland early next week. This will result in afternoon showers and thunderstorms each day this weekend and into early next week.

San Francisco Weather:

Cooling near the coast today as a southerly surge of stratus will move from south to north up the coast. Inland areas will continue to be warm with only a few degrees of cooling. The marine layer will deepen tonight and spread into the bay and coastal valleys by Saturday morning with all areas seeing much cooler temperatures Saturday afternoon. High pressure will stay in place Sunday through next week with seasonable temperatures.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Warm and dry weather will continue with above normal temperatures. A slow cooling trend begins over the weekend into next week but daytime highs will remain above normal. A weak trough will bring a chance of showers or thunderstorms near the Sierra Crest the next several days. Low pressure will bring a chance of showers or thunderstorms mainly over the mountains during the middle of next week.

Hanford Weather:

High pressure over the desert southwest will provide for above normal afternoon temperatures over the central ca interior through early next week. Isolated showers and thunderstorms will be possible near the southern sierra crest each afternoon and evening with the remainder of the area remaining dry.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will linger today and bring above normal temperatures and fair skies except for some coastal low clouds. By early next week a low will arrive to deepen the overnight marine layer and cool afternoon temperatures to near normal with the nighttime temperatures to be above normal into midweek. The low will weaken on Thursday for a slight warming trend into the weekend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A weak low pressure system off the California coast will move slowly inland through southern California on Sunday and Monday. This will bring slight cooling today then greater cooling and a greater return of night and morning coastal low clouds and fog for Saturday through Monday as the marine layer deepens and onshore flow strengthens. There is also a slight afternoon and early evening showers and thunderstorms on Monday mainly for the mountains and deserts. Onshore flow will continue through mid to late week with slightly below average high temperatures for inland areas.

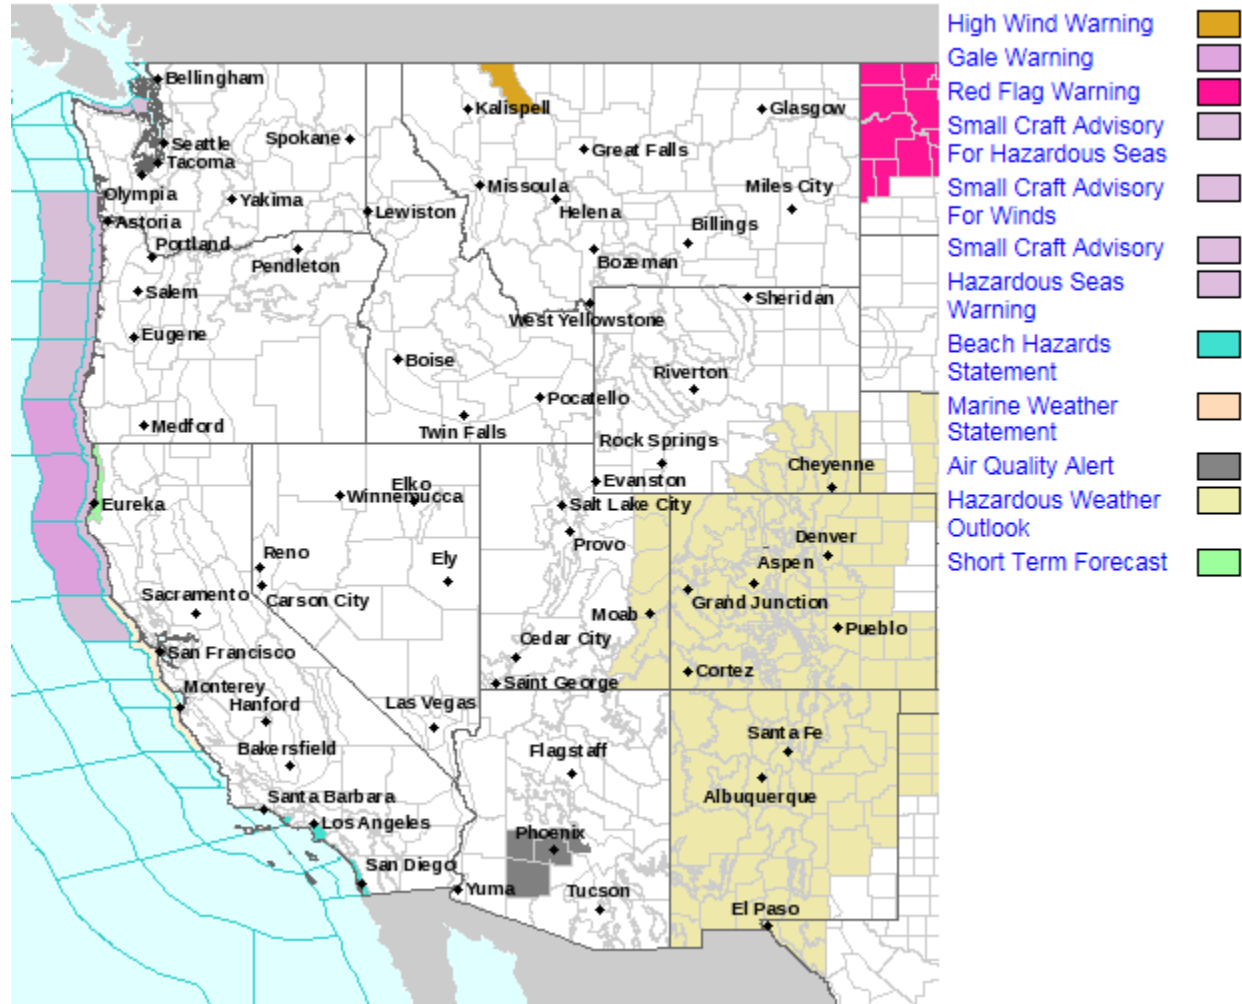

Southeast California Weather:

Unusually warm weather will continue into the weekend with many desert locations once again around triple digits today. Temperatures will cool slightly later in the weekend and early next week as a weather disturbance nears the area. This weather system may also lead to a few showers for higher elevation areas with even cooler temperatures in its wake during the middle of next week.

RECOVERY ACTIVITIES

Round Fire, Mono County

- On Day 29, received confirmation sampling results from six sites and two re-tests. Of the six, four sites were below objectives and two were not. Of the two re-tests, both were below objectives. All hazard trees were removed on Day 29. Hydro-seeding of private lots started.
- Tree falling crews completed removing, bucking, and chipping hazard trees on the private home sites. Contractors continued installing erosion control devices and working on final punch list.

Project Totals as Day 29:

37	Homeowners who registered for the removal project.
4	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
37	Debris removal completed.
37/35	Confirmation sampling completed/approved.
34	Tree Removal Completed (35 homes have hazard trees).
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Daily Tonnage:

Category	Day 28	Day 29
Debris/Ash	0	0
Soil Disposed	0	0
Metal Recycled	0	0
Concrete Recycled	0	0
Total	0	0

Estimated Project Total Tonnage for the Project as of Day 29:

Category	Total Tons
Debris and Ash Disposed	3,459
Soil Disposed	4,480
Metals Recycled	1,476
Concrete Recycled	3,916
Total All Categories	13,331

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

California Specialized Training Institute

[CSTI Course Catalog](#)

[CSTI on the web](#)

[CSTI Course Schedule](#)

The California Specialized Training Institute (CSTI) delivers specialized training throughout California as well as at its main campus in San Luis Obispo year-round. Currently, CSTI offers over 100 course titles in the disciplines of emergency management, criminal justice/officer safety, terrorism, hazardous materials, disaster mitigation, preparedness and recovery, and crisis communications.

CSTI can also develop custom courses for your organization or jurisdiction. CSTI uses national standards and curriculum as the core of its training delivery program. Many of CSTI's courses can be applied to FEMA's Advanced Professional Series, or the California Governor's Office of Emergency Services Specialist Certificate and Credentialing programs.

CSTI delivers training to state and local government agencies, tribal organizations, businesses, non-profit organizations, and numerous other organizations. CSTI designs a variety of training for entry-level, mid-career, senior management, and executive level professionals.
